KOORA TOUR · PRODUCT DOCUMENTATION

USER SCENARIOS

Every scenario a fan, player, team captain, host/organizer and the God Admin can run into on the site — with outcomes, error messages and who else is affected.

Every scenario a person can run into on the site, grouped by role. Each one says **what the person does**, **what happens**, and **who else is affected**. Error and edge cases are listed with the exact message the site shows.

At the end, Scenarios not supported yet lists situations that would come up in a real tournament but that the site can't handle today.

Roles at a glance

Role	Lands on	Can change things?
Guest (not signed in)	Landing page	No, browse only
Fan	My Koora	Only their own preferences (followed club, votes)
Player	Player dashboard	No, view only (same profile view as fans)
Team Captain	Captain dashboard	Requests only; the God Admin approves them
Host / Organizer	Staff dashboard	Only what the God Admin granted; sensitive changes need approval
God Admin	Admin dashboard	Everything; final say on every sensitive decision

What counts as "sensitive" (needs God Admin approval): match reschedules, adding or removing players, fixture changes (kickoff time or venue), and final results.

1. GUEST (NOT SIGNED IN)

#	Scenario	What happens
G1	Opens the site	Landing page: hero with the next-match countdown, the results circles (feature circles plus the last three matchdays), featured video, headlines, latest results, upcoming fixtures, table, top scorers and assists, highlights, Final Four bracket, news.
G2	Browses matches	Fixtures and results by matchday (MD1–MD11, Semis, Final), or a full season for one club.
G3	Opens a match	Match centre with these tabs: **Overview** (timeline of goals, cards and subs; form guide; previous meeting), **Stats** (possession, shots and more), **Squads**, **Venue & travel** (address, transport, parking, gate times, map, directions).
G4	Adds a match to their calendar	Downloads an .ics file for that match (scheduled matches only).
G5	Checks the table	League table with form; top four marked for the Final Four; projected bracket.
G6	Checks stats	Leaders (goals, assists, goals + assists, clean sheets, yellow and red cards), all-player table with filters, club stats.

#	Scenario	What happens
G7	Browses clubs and players	Club page (overview, squad, fixtures, stats) and player profile (stats and match log).
G8	Watches highlights	Plays the YouTube video, or an animated goal recap if no video was attached. Can filter by type and club.
G9	Reads news	Articles by category; tagged clubs link to club pages.
G10	Plans a trip to a venue	Venues page: map, address, transport, parking, upcoming matches at each ground.
G11	Searches	Search (icon or the / key) finds clubs, players and venues.
G12	Tries to vote for Player of the Match	Sees a "Sign in to vote" prompt.
G13	Tries to follow a club	"Follow club" takes them to the sign-in page.
G14	Opens a dashboard address directly	Sent to the sign-in page.
G15	Opens a page that doesn't exist	"Page not found."

2. FAN

#	Scenario	What happens	Others affected
F1	Creates a fan account	Enters name and email, optionally picks a favourite club. Signed in and taken to My Koora.	Appears in the God Admin's user list as a Fan.
F2	Signs in with an existing account	Picks their account and lands on My Koora.	—
F3	Uses My Koora	Sees their club's position, points, form, upcoming matches, recent results, news about their club first, and how many Player of the Match votes they've cast.	—
F4	Follows or unfollows a club	From the club page or the My Koora dropdown. The table highlights their club, and the landing page shows a "Your club" card.	—
F5	Follows no club	My Koora prompts them to pick one; the landing page shows the "Follow your club" crest row.	—
F6	Votes for Player of the Match	On a finished match, picks a player; vote shares show as percentages.	Vote shares change for everyone.
F7	Changes their vote	Picks a different player; only the latest vote counts.	—
F8	Gets notifications	Bell shows tournament-wide alerts (kick-offs, full-time results, announcements) and alerts for the club they follow (for example, new kickoff times).	—

#	Scenario	What happens	Others affected
F9	Does everything a guest can	G1–G11.	—
F10	Gets promoted by the God Admin	Their role changes (for example to Organizer); a notification explains the change; their dashboard link changes.	—
F11	Is suspended	Signing in is blocked (suspended accounts are hidden from sign-in); open dashboards show "Your account is suspended."	—

3. PLAYER (VIEW ONLY)

#	Scenario	What happens	Others affected
P1	Checks their schedule	**My matches:** next-match countdown, every upcoming match with home/away, kickoff, **call time (2 hours before)**, venue, address, transport and parking.	—
P2	Gets to a venue	"Directions" opens maps; "Show map" shows the map inline.	—
P3	Adds all matches to their calendar	"Add all to calendar" downloads an .ics with every upcoming match, including call time and travel info.	—
P4	Views their own profile	**My profile:** their details and stats (goals, assists, matches, cards). View only, the same as fans see it.	—
P5	Wants to correct their details	They are told to ask their captain; changes go through the God Admin (no in-app request yet, see gaps).	Captain.
P6	Views their team	**My team:** squad list with the captain marked and season stats.	—
P7	Reads team notices	**Team notices:** new kickoff times, players joining, access changes.	—
P8	Match is rescheduled	Notification and updated schedule as soon as the God Admin approves.	—
P9	Is removed from the squad	After God Admin approval their account becomes a **Fan** account, and their public profile shows "No longer registered" (stats kept).	—
P10	Account has no team linked	"You are not registered with a team", with a link to My Koora.	—
P11	Does everything a fan can	F3–F8 (voting, following, browsing).	—

4. TEAM CAPTAIN

Rescheduling a match

#	Scenario	What happens	Others affected
C1	Requests a **delay**	Schedule & venues → "Request delay / time change" → Delay kickoff (30 minutes to 4 hours) → reason. Sees the old time crossed out and the new time. Gets "Request sent to the God Admin for approval."	God Admin is notified; organizers who review requests are notified.

#	Scenario	What happens	Others affected
C2	Requests a **date/time change**	Same flow, but picks a new date and time.	Same as C1.
C3	Requests too close to kickoff	The form warns that requests need at least *N* hours' notice (set by the God Admin) and the send button is disabled. If it gets through anyway: "Requests must be made at least *N*h before kickoff."	—
C4	Requests a second change for the same match	The button is hidden while one is pending ("Change requested" badge). Message if attempted: "There is already a pending reschedule request for this match."	—
C5	Organizer supports or opposes the request	Captain sees the recommendation on the request card.	—
C6	Request **approved**	Kickoff updates everywhere. Captain is notified ("...was approved").	Both teams' players and followers are told the new kickoff; hosts are told the fixture changed.
C7	Request **rejected**	Kickoff unchanged; captain is notified with the God Admin's note.	—
C8	Withdraws a pending request	My requests → "Withdraw request". Status becomes cancelled.	Logged in the audit log.

Managing the squad

#	Scenario	What happens	Others affected
C9	Requests to **add a player**	Squad → "Request new player" → name, shirt number (first free number pre-filled), position, nationality, age, height, foot, reason.	God Admin is notified.
C10	Picks a shirt number that's taken	Inline warning and the send button is disabled; message if attempted: "Shirt #N is already taken."	—
C11	Squad is full	"Squad limit is N players (including pending additions)."	—
C12	Requests to **remove a player**	Squad → "Request removal" → reason. Row shows "Removal pending".	God Admin is notified.
C13	Requests removal of the same player twice	"A removal request for this player is already pending."	—
C14	Tries to remove themselves	Not offered (their row shows "You").	—
C15	Rosters are **locked**	Banner "Rosters are locked"; add/remove buttons are disabled. Message if attempted: "Rosters are locked by the God Admin. No squad changes are accepted right now." Schedule requests still work.	—
C16	Add approved	Player joins the squad and appears on the club page, in stats and in search.	Team is notified "...has joined the squad."

#	Scenario	What happens	Others affected
C17	Add approved, but the shirt number was taken in the meantime	God Admin sees "Shirt #N has since been taken — reject or ask the captain to resubmit."	—
C18	Removal approved	Player is deregistered (stats kept). If the player had an account, it becomes a Fan account.	Captain is notified.
C19	Any request rejected	Notified with the God Admin's note.	—

Everyday use

#	Scenario	What happens
C20	Checks the team hub	Overview: next-match countdown, position, points, goal difference, squad size versus limit, pending requests, recent results.
C21	Views schedule and venues	Same as a player's view (call times, directions, maps, calendar export), plus the reschedule button.
C22	Tracks requests	My requests: every reschedule, add and remove request with its status, organizer recommendations and the God Admin's decision.
C23	Captain account has no team	"No team is linked to your captain account yet. Ask the God Admin to assign one."
C24	Is replaced as captain	God Admin changes their role; their dashboard changes accordingly.
C25	Does everything a fan can	Browsing, voting, following.

5. HOST / ORGANIZER

Hosts and organizers share one workspace. **What each person sees depends on the privileges the God Admin gave them.**

Privilege	Unlocks
Match-day control	Running live matches and submitting results
Manage fixtures	Proposing kickoff and venue changes
Review requests	Advising on captain requests
Publish news	Writing, editing and deleting articles
Manage highlights	Adding and removing videos
Manage venues	Editing venue details
Manage team info	Editing club bio, coach and colours

Default presets: **Host** = match-day control and manage venues. **Organizer** = manage fixtures, publish news, manage highlights and review requests.

Match day (needs *Match-day control*; **hosts only see matches at their assigned venues**)

#	Scenario	What happens	Others affected
H1	Kicks off a match	Match-day control → pick the match → "Kick off". Match goes live.	**Everyone** gets "Kick-off! … is live"; a red live bar appears across the site with the score.
H2	Runs the clock	Sets the minute, jumps to HT (45′) or +5′.	Live minute shows for fans.
H3	Logs a goal (with or without an assist), penalty, own goal, yellow, red or substitution	Picks team, player, minute (and assist or player off). The score updates instantly.	Fans see it live on the match page and the live bar.
H4	Logs an event by mistake	Removes it from the timeline (×).	—
H5	Enters match stats	Possession, shots, on target, corners, fouls, passes → "Save stats".	Stats tab fills in for fans.
H6	Final whistle	Adds notes → "Submit X–Y for verification". The match shows **FT · Verifying**; **the table and stats don't count it yet**.	God Admin is notified.
H7	Result verified	Match becomes **FT**; table, scorers and leaders update.	Everyone gets "Full time: …".
H8	Result rejected	Match goes back to **live** so the host can correct and resubmit.	Host is notified with the note.
H9	Host with no venues assigned	"No upcoming matches at your assigned venues."	—
H10	Opens a match page they control	"Open match control" button jumps straight to that match.	—

Planning and content

#	Scenario	Needs	What happens
H11	Proposes a kickoff or venue change	Manage fixtures	Fixtures → "Propose change" → new time and/or venue + reason. Goes to the God Admin; badge "Change pending". Approved → applies everywhere and notifies both teams and hosts.
H12	Proposes a change that's identical to the current fixture	Manage fixtures	The send button stays disabled.
H13	Advises on a captain request	Review requests	Review requests → "Support" or "Oppose" with a note. The God Admin sees it on the request; they can change their recommendation while it's pending.
H14	Writes, edits or deletes an article	Publish news	Headline, summary, category, body, tagged clubs. Published immediately (not sensitive). Tagged clubs' followers see it first in My Koora.
H15	Adds a highlight	Manage highlights	Title, type, duration, optional match, optional YouTube link. Invalid link → warning, animated recap used instead.
H16	Removes a highlight	Manage highlights	Removed from the hub and landing page.
H17	Edits venue details	Manage venues	Name, address, capacity, surface, transport, parking. Hosts only see their own venues.

#	Scenario	Needs	What happens
H18	Edits club info	Manage team info	Coach, bio, colours (chosen from the site's three-colour palette). Squad changes stay with captains.
H19	Tracks their submissions	—	My submissions: fixture changes and results with status; can withdraw pending fixture changes.
H20	Has no privileges at all	—	Sees only the overview (privileges shown greyed out) and My submissions.
H21	Privileges change	—	Notification from the God Admin; menu sections appear or disappear on the next view.
H22	Is suspended	—	Can't sign in; all actions are blocked.

6. GOD ADMIN

Decisions

#	Scenario	What happens	Others affected
A1	Reviews pending requests	Command centre shows the queue; Approvals lists all pending items with the change (old → new), reason and organizer recommendations. Filter by type.	—
A2	Approves a reschedule or fixture change	Kickoff and/or venue updated everywhere.	Requester, both teams, followers and hosts notified.
A3	Approves adding a player	Player created and added to the squad.	Team notified.
A4	Approves removing a player	Player deregistered; their account (if any) becomes a Fan account.	Requester notified.
A5	Verifies a result	Match final; table and stats update.	Everyone notified.
A6	Rejects any request (with a note)	Nothing changes; a rejected result returns to live.	Requester notified with the note.
A7	Acts on a request that's no longer pending (e.g. it was withdrawn in another tab)	"Request is no longer pending."	—
A8	Reviews history	Approvals → History shows every decision, who made it and when.	—

People and access

#	Scenario	What happens
A9	Makes someone a **Host**	Edit access → role Host → privileges (preset) → **assigns venues**.
A10	Makes someone an **Organizer**	Edit access → role Organizer → privileges (preset, adjustable).
A11	Fine-tunes privileges	Ticks any combination of the seven privileges, or resets to the preset.

#	Scenario	What happens
A12	Assigns a **Captain** or **Player**	Picks a team and links the account to a player profile. Warning if the team already has a captain.
A13	Demotes or changes a role	Role changes immediately; the user is notified.
A14	Invites a new user	Name, email, role (hosts/organizers start with their preset).
A15	Suspends or reinstates a user	Suspended users can't sign in.
A16	Tries to change their own role	Not allowed ("You cannot change your own God Admin role").
A17	Finds a user	Search by name or email; filter by role.

Tournament control

#	Scenario	What happens
A18	Edits any fixture directly	Fixtures → Edit → kickoff, venue, status (scheduled, postponed, live, finished), referee. Applies immediately as an override; logged.
A19	Postpones a match	Sets status to Postponed; it shows "PPD" in fixtures.
A20	Locks or unlocks rosters	Captains are notified; squad requests are blocked while locked.
A21	Changes rules	Tournament name, season, maximum squad size, minimum reschedule notice (hours).
A22	Reads the audit log	Every request, decision, role change, setting change, article, highlight and venue edit, with who and when.
A23	Resets the demo season	Restores the original season (asks for confirmation; erases changes in this browser).
A24	Does everything else	Has every privilege, so can also run match day at any venue, publish news, manage highlights, venues and teams.

7. SCENARIOS ACROSS ROLES

End-to-end flows that involve several people.

1. **Reschedule:** Captain requests a delay → organizer recommends → God Admin approves → both squads, followers and hosts are notified → players' schedules and calendar exports show the new time.
2. **New signing:** Captain requests a player → God Admin approves → the player appears in the squad, stats and search → the team is notified.
3. **Match day:** Host kicks off (everyone sees it live) → logs goals and cards → submits the result → God Admin verifies → table, top scorers, the landing-page circles (Goal and Player of the Week, Top of the Table) and full-time alerts update → fans vote for Player of the Match.
4. **Wrong result:** Host submits → God Admin rejects with a note → the match goes back to live → host corrects and resubmits.
5. **Staffing:** God Admin promotes a fan to Host → assigns two venues → the host only sees those matches in match-day control.

6. **Transfer window closes:** God Admin locks rosters → captains are notified → add/remove requests are blocked.

SCENARIOS NOT SUPPORTED YET

These would come up in a real tournament but the site can't handle them today.

Area	Scenario	Why it matters
Accounts	Real sign-in with passwords, password reset, email verification	Sign-in is a demo account picker; data lives in each browser. A backend is needed before real use.
Accounts	Changing your own name or email	No profile settings page.
Knockouts	Running the semi-finals and Final	Knockout matches only show *projected* teams; there's no way to confirm the qualified teams, so match-day control can't run them.
Knockouts	Draws in knockouts (extra time, penalties)	No extra time or shoot-out support.
Players	A player requesting a correction to their own details	Has to ask the captain outside the app.
Captains	Editing an existing player's details (number, position)	Only add and remove are available.
Captains	Requesting a venue change	Captains can only request time changes; organizers can propose venue changes.
Captains	Transferring a player to another team	Would need a remove and an add, by two captains.
Match day	Starting line-ups and benches	Squads tab shows the whole squad; appearances are counted for every squad member.
Match day	Abandoned matches or forfeits	Only scheduled, postponed, live and finished.
Match day	Hosts postponing a match	Only the God Admin can set Postponed.
Discipline	Suspensions after red cards or yellow-card accumulation	Cards are recorded but not enforced.
Fans	Player of the Match voting closing after a set time	Voting stays open indefinitely.
Fans	Following several clubs, or push/email notifications	One followed club; alerts appear only in the bell.
Content	Uploading video files directly	Highlights accept YouTube links only.
Content	Arabic or Turkish language	English only.
